

**A NURSING CAREER IS
CLOSER THAN YOU THINK.**

ACCELERATED BACHELOR OF SCIENCE IN NURSING PROGRAM

ROSEMAN UNIVERSITY
COLLEGE OF NURSING

Nevada | Utah

DISCOVER YOUR FULL POTENTIAL

As a nonprofit university with a single focus on healthcare education, we're able to concentrate on you and how you learn. In other words, you can expect a quality nursing education that not only meets the diverse healthcare needs of society, but also serves to develop your full potential.

**OUR EDUCATIONAL PHILOSOPHY
CENTERS AROUND YOU.**

MASTERY LEARNING MODEL

We provide an engaging and supportive academic environment that gives you the opportunity to reach a high level of achievement. Rather than fill your mind with facts, we focus on how well you learn, apply, and master our curriculum. And instead of grading on a curve, we use a fixed set of predetermined learning standards to measure your level of understanding.

Our Six-Points of Mastery Learning:

1. **Block Curriculum.** We have you focus on one block of nursing content at a time, allowing you to learn, apply, and master the material before proceeding to the next area of study.
2. **Active and Collaborative Learning.** We use a variety of educational activities to not only accommodate different learning styles, but also help reinforce nursing concepts.
3. **Competency-based Education.** We use criterion-referenced assessment tools to measure your nursing competency, requiring a minimum score of 90% in every course.
4. **Assessment Learning.** We evaluate your nursing comprehension every few weeks in an effort to detect and correct areas of misunderstanding as soon as possible.
5. **Early Experiential Learning.** You will start to apply your classroom knowledge in actual healthcare settings during the first few months of the program.
6. **Classroom as Teacher.** Our circular classroom layout encourages student participation, ensuring everyone has a seat within close proximity of the instructor.

Our University
is accredited by
the Northwest
Commission on
Colleges and
Universities.

accredited

*“I’m really impressed by how much compassion,
care, and respect that Roseman has for its students.”*

— George Hanania, ABSN Program, Nevada

OUR ABSN PROGRAM LETS YOU
FAST-TRACK INTO NURSING.

ACCELERATE YOUR RN CAREER

Whether you've always wanted to become a nurse or recently identified with the profession, our Accelerated BSN (ABSN) program can get you moving on your nursing education as soon as possible. By leveraging your previous college experience, the full-time program makes it possible to earn a bachelor's degree in nursing in less than 18 months.*

*"I chose Roseman
because I didn't want
to wait any longer."*

— Whitney Pauly,
ABSN Program, Utah

**Our ABSN program
is accredited by
the Accreditation
Commission
for Education
in Nursing.**

ABSN

QUALITY EDUCATION

Our ABSN program maintains nursing accreditation and board of nursing approval to ensure healthcare employers recognize the value of your education.

COLLABORATIVE LEARNING

Our approach to nursing education focuses on your mastery of the course material by way of supportive faculty, ongoing assessment, and remediation.

SUCCESSFUL RESULTS

You can expect to graduate from our ABSN program with the knowledge and skills required to sit for the NCLEX-RN® exam and pursue a nursing career.

* Does not include the time it takes to complete prerequisite courses.

**OUR ABSN FORMAT
MAKES YOU WELL ROUNDED.**

“The lab professors here are awesome and very approachable. They’re here to help—100 percent.”

— Lacy Ver Steeg, ABSN Program, Utah

Our ABSN program features a rigorous blend of online and onsite learning.

BLEND ED LEARNING GIVES YOU A GOOD MIX OF INSTRUCTION

Our ABSN program features multifaceted online and onsite curriculum framed within the values of competency, integrity, and leadership. Through this blended approach, we establish the foundation required for providing safe, effective, and ethical nursing care, while also setting the stage for lifelong learning and professional development.

ONLINE COURSES

Online courses provide a high level of learning convenience. Our dynamic e-Learning platform is ready to teach you about nursing theory anytime, anywhere. You can also meet with us on campus to discuss your studies.

NURSING LABS

Nursing labs teach you how to practice and hone your core clinical skills without putting patient safety at risk. Featuring hospital equipment and lifelike, computerized manikins, these labs make you feel as if you’re in a real medical facility tending to patients and their families.

CLINICAL ROTATIONS

Clinical rotations at top healthcare facilities give you a deeper understanding of the nursing profession. Not only will you learn about protocol and medical charts, you will help care for patients in diverse practice settings.

YOUR PATH TO UNDERSTANDING

Our accredited ABSN curriculum promotes safe, quality, and ethical care for a culturally diverse society. Because what you learn in nursing school is so important to your future, we have you complete the curriculum in a way that promotes knowledge progression and full comprehension of all subject matter.

OUR ABSN CURRICULUM
GIVES YOU FOCUS.

BLOCK CURRICULUM

Our block curriculum lets you learn, apply, and master one subject at a time. Each block covers a specific area of nursing, from health assessment to older adult care to nursing leadership. The length of each block varies between two and eight weeks—it just depends on the content area, nursing labs, and clinical rotations involved.

ONGOING ASSESSMENT

Ongoing assessment is important in block curriculum because you must master one block of content before moving to the next. To help ensure your progression in the program, we evaluate your comprehension of the material every few weeks. If you experience difficulty with certain content, we help you resolve areas of misunderstanding as soon as possible.

REMIEDIATION EFFORTS

To ensure your full comprehension of the curriculum, we require you to earn a 90% or higher on each block assessment. If you're unable to satisfy the requirement, we assign you corrective activities that let you relearn the material and then undergo another assessment.

THE BUILDING BLOCKS OF A SOLID NURSING EDUCATION

Your nursing education will progress from block to block, starting with an introduction to the profession and ending with a senior seminar in nursing. Each block covers a specific area of nursing such as:

Health Assessment	Maternal Newborn Nursing
Nursing Fundamentals	Pediatric Nursing
Nursing Pharmacology	Community/Mental Health
Adult Health	Older Adult Care
Nursing Research	Nursing Leadership

“I really like the block curriculum because you can focus on understanding concepts, not just memorizing details.”

— Ashley Poppewimer, ABSN Program, Nevada

support

Academic success coaching
is one of the many ways we support ABSN students.

“The ABSN admissions process is awesome. The staff makes it super easy to start the enrollment process.”

— Genessa LoBello, ABSN Program, Nevada

**OUR ADMISSIONS ADVISORS
ARE HERE FOR YOU.**

We have a team of admissions advisors dedicated solely to the ABSN program.

advice

GET READY TO APPLY YOURSELF

With nurses in high demand across the country, there is no better time than now to go back to school to earn a nursing degree.

With three program starts a year at two campus locations, our ABSN program is ready to make you work, apply yourself, and be ready for a nursing career in less than 18 months.*

ADMISSIONS REQUIREMENTS

- Meet the minimum college credit and GPA requirements
- Satisfy the prerequisite courses requirements
- Complete the Test of Essential Academic Skills (TEAS) with an acceptable score
- Complete the Test of English as a Foreign Language (TOEFL) if applicable

Admissions information is subject to change without notice. Please speak with an admissions advisor regarding full requirement details. Meeting our admissions requirements does not guarantee enrollment in the ABSN program.

ADMISSIONS SUPPORT

While applying to nursing school may seem stressful, our admissions advisors help make the experience as seamless as possible. Working exclusively with ABSN students, these advisors know the ins and outs of the program and can help you develop a pre-enrollment plan for your preferred start date.

START DATES

- February
- July
- October

ENROLLMENT PROCESS

- Talk to an advisor to confirm your eligibility
- Order your official college transcripts
- Complete pre-enrollment testing
- Complete the ABSN prerequisite courses
- Submit your application and pay the associated fees
- Complete an in-person interview with our admissions committee (if granted)
- Complete a writing sample for the admissions committee
- Receive an admissions decision shortly after your in-person interview

* Does not include the time it takes to complete prerequisite courses.

OUR TWO ABSN CAMPUSES
GIVE YOU OPTIONS.

CHOOSE YOUR LEARNING ADVENTURE

While our two ABSN campuses reside in very different locations, each one exists to provide an accelerated path to nursing. You will visit the campus affiliated with your program of enrollment to take proctored exams, participate in nursing labs with faculty, and prepare for clinical rotations at nearby healthcare facilities.

HENDERSON, NEVADA CAMPUS

If you like an abundance of shopping, fine dining, and entertainment, our Henderson campus is for you. Located near Downtown Las Vegas, the campus gives you easy access to some of the best retailers, restaurants, museums, and performing arts in the country.

Unique to the Nevada campus, our Veteran to BSN pathway (VBSN) gives former military service members the opportunity to receive academic credit for their training and experience in the U.S. Armed Forces.

SOUTH JORDAN, UTAH CAMPUS

If you like stunning scenery, our South Jordan campus sits between the Oquirrh Mountains on the west, and Wasatch Mountains on the east. Not too far from Downtown Salt Lake City, the campus affords easy access to a vibrant urban culture, national forests, and ski resorts.

Because Utah is a Nurse Licensure Compact state, ABSN graduates who pass the NCLEX-RN and claim primary residence here can practice nursing in any NLC state without having to complete or pay for additional licensure applications.

YOU HAVE QUESTIONS? WE HAVE ANSWERS.

FREQUENTLY ASKED ABSN PROGRAM QUESTIONS

Is the ABSN program accredited?

Yes, our ABSN programs near Las Vegas and Salt Lake City are both accredited by the Accreditation Commission for Education in Nursing (ACEN), located at 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326.

The ABSN program in Henderson, Nevada, meets the approval of the Nevada State Board of Registered Nursing, while the ABSN program in South Jordan, Utah, meets the approval of the Utah State Board of Nursing.

Our University is accredited by the Northwest Commission on Colleges and Universities (NWCCU), located at 8060 165th Avenue NE, Suite 100, Redmond, Washington 98052.

Does Roseman accept credit transfers?

While students commonly transfer credits from other undergraduate programs, our College of Nursing examines the transfer of coursework credit on a case-by-case basis. An admissions advisor can help you determine if your credits come from an applicable post-secondary institution.

“I moved to Nevada to get into nursing faster because my home state of California was oversaturated with nursing students.”

— Shaun Rose, ABSN Program, Nevada

“I wanted to get into an accelerated program and the waitlist for schools in my home state of California made it impossible. I’ve lived in a lot of places and the move to Salt Lake City has made me the happiest thus far.” — Lacy Ver Steeg, ABSN Program, Utah

How long will it take me to graduate from the ABSN program?

The ABSN program itself can be completed in less than 18 months. However, program length may vary per cohort because of holidays or other breaks. ABSN prerequisite courses are not factored into the accelerated timeframe. The time it will take you to complete the prerequisites is highly dependent on your academic history.

Can I apply to the ABSN program while completing the prerequisites?

Yes, as long as you meet all of the other admissions requirements. If you get accepted into the program, your start date will be determined by the completion of your last prerequisite course.

How do I apply for the ABSN program?

The first step is to verify your eligibility with an admissions advisor. If you meet the admissions requirements, you can begin the application process. We recommend working closely with your advisor to ensure you successfully complete every step of the process within the specified deadline.

Can I work while in the ABSN program?

While some students work during the program, many choose to focus solely on their education given the time and energy required to graduate.

Are scholarships available?

Yes, scholarships are available for accelerated nursing students. Please speak with a financial counselor for specific information.
